3D file available on moustache.fr

DB 03
sand

DB 03
light grey

DB 03
anthracite

Touch is a new collection of tables that plays with different variations of volumes, patterns, textures and colors. Always close to an essential abstraction, these tables can be combined together in many different ways to form occasional to large coffee tables. Designed thanks to the last 3D modelling softwares, the Touch tables are produced one by one following an ancestral method.

The Touch collection also includes:

Touch 1
coffee table

Touch 2
coffee table
