3D model available on [moustache.fr](http://moustache.fr)

The Sphaera collection of mirrors by Jean-Baptiste Fastrez is a contemporary interpretation of a technical device for creating mirror walls.

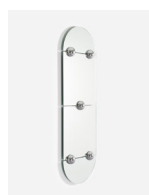

Very popular in the first half of the 20<sup>th</sup> century, the mirror bracket has since been reduced to its sole function, and today is no more than a kind of mirror attachment sold in the bathroom section of DIY shops.

A veritable system, Sphaera revives the decorative tradition of this invisible technical element by giving it an unexpected sculptural dimension and unprecedented flexibility.

14 models to choose from an infinite range of possibilities.

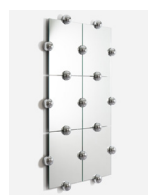

The Sphaera collection also includes :

Sphaera Oblong Large Mirror

Sphaera Crystal Palace Mirror

Sphaera Crystal Palace Large Vertical Mirror
