

SERAX

Tomorrowland

UNITY

TABLEWARE

UNITY — The Unity tableware is made from high-quality white porcelain, chosen for its timeless elegance. The plates are extremely minimalist in form and subtly decorated with illustrations that perfectly reflect Tomorrowland's signature artwork. Everything was hand-drawn by Tomorrowland's in-house creative team. A beautiful addition to the plates is the coffee set (tea, coffee, and milk jug), which also excels in elegance.

The Unity glassware collection can be described as new art nouveau. Made from crystal potassium glass, the pieces are mouth-blown and delicately hand-engraved.

The boundless love for craftsmanship and the years of experience at Serax have resulted in Unity becoming a collection of exceptional refinement.

Serax and Tomorrowland, two Belgian companies with strong international recognition, have joined forces. The result is a tableware collection in which the DNA of both icons seamlessly comes together: minimalist in form, magical in design.

Tomorrowland is a globally iconic dance festival in Boom, Belgium, known for its spectacular stages, top artists, and magical atmosphere. Since 2005, it has brought together 400,000 visitors from more than 190 countries each year through music, creativity, sustainability, and a strong sense of community. Over time, it has evolved into much more than just a festival: a global platform that spreads magic year-round — from digital events and radio shows to documentaries and collaborations with renowned brands.
