Delivered assembled

Care:
Soft brush

Made in France

3D file available on moustache.fr

Made up of two identical tubular parts in metal embedded in each other, the Bold stool, following the chair before it, is an updated version of the tradition of a bended seat in tubular steel. Inflated with a thin foam and thickened similarly to the font which is made bold, the Bold stool succeeds in doing away with the seat and gives it an amazing level of comfort.
