

## GEORGE'S | INDOOR - OUTDOOR

design David Lopez Quincoces

Dining chair available for indoor and outdoor in both Light version (only frame) and woven in the finishing available in our collection.

**Indoor version:** supporting frame in tubular and steel rod section Ø16mm coated with epoxy powder finish RAL 9017 matt black. Weave in hide (Ø2,5 mm) or synthetic rope (Ø2 mm). Seat, made of 5 slats glued together, in natural or charcoal- dyed solid ash wood with waterbased acrylic paint finish.

**Outdoor version:** supporting frame in tubular and steel rod section Ø16mm coated with a galvanizing base for outdoor and epoxy polyester powder finish RAL 9017 matt black. Weave in synthetic rope (Ø2 mm) and seat, made of 5 slats glued together, in solid Iroko wood for outdoor.

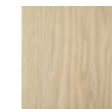

Floor support provided by plastic tips.

Light

Woven

### Notes

Wood is a living material; therefore, it can have slight color and dimension changes. The presence of any non-homogeneous color shades is not to be considered a defect but a quality.

For wooden finishing the "Outdoor Wood" Maintenance Kit is included with the product.

For the OUTDOOR version, we recommend placing the product on terraces or verandas to guarantee its durability over the years. It is recommended to use a "Protective Cover" to improve the longevity of the product. For further information about the dedicated maintenance, please refer to the technical sheet available in the "Materials" section on our website.
