

Design Mario Ferrarini

Hiru, 947
sedia dining \ dining chair

La famiglia di Hiru disegnata da Mario Ferrarini è composta da sedia e poltroncina dining, caratterizzate da gambe elicoidali e superfici non planari, alle quali si aggiunge lo sgabello in due altezze. Un rapporto vicendevole dove il legno diventa la struttura su cui si sviluppa il rivestimento, visibile da ogni angolazione della seduta, mostrando così la sapiente capacità dell'azienda nel lavorare il legno come materia viva.

Hiru family was designed by Mario Ferrarini and is composed by dining chair and armchair, characterized by helicoidal legs and planar surfaces, to which the stool, available in two heights, is added. A reciprocal relationship where the wood becomes the structure on which the upholstery is developed, visible from every angle of the seat, thus demonstrating the company's skillful ability to work wood as a living material.

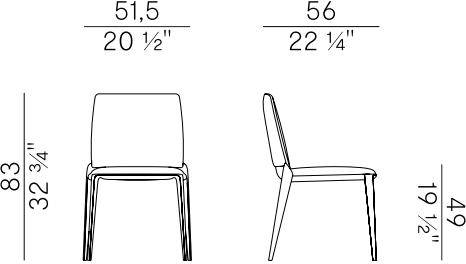

Informazioni tecniche \ Technical information

Descrizione tecnica \
Technical description

Sedia dining con gambe elicoidali e
superfici non planari. Struttura in legno
massello di frassino con seduta e schienale
imbottiti in poliuretano espanso ignifugo.
