

OUZO

design Piero Lissoni

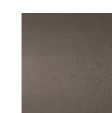

Armchair available in two types of shell, both made with a curved poplar plywood structure and differentiated density polyurethane foam padding, covered with a lining made of polyester fiber, with needle-treatment and resin-coated, coupled with a polyamide velveteen backing. Seat cushion in polyurethane foam covered with a lining made of 100% polyether, coupled with a thermo fixed polyamide velveteen backing.

Wood or upholstered legs version: Base made with frame in black matte-painted steel tubing, fixed to the shell using screws, and turned solid ash wood legs in natural or charcoal dyed finish, with water-based acrylic coating, or upholstered in leather, and features turned steel tips finished in a burnished color.

Metal legs version: Base with conical steel tube legs with epoxy polyester powder coating in gunmetal grey or burnished color, fixed to the shell using screws.

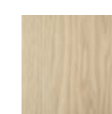

Swivel base version: Base in 20 mm thick CNC-machined steel plate and Ø50 mm drawn tube with built-in swivel return mechanism, with epoxy powder coating in burnished or gunmetal grey color. For all versions, floor support provided by interchangeable tips in black plastic or felt. Fabric or leather upholstery, fully removable with zippers and Velcro fastenings, by removing the frame and seat pan from the shell. Seat depth: 45 cm.

Notes

Wood is a living material; therefore, it can have slight color and dimension changes.
The presence of any non-homogeneous color shades is not to be considered a defect but a quality.

For information on the compatibility of the collection's coverings with each product, please refer to the [compliance sheet](#) provided in the "Materials" section of the website.

For leather coverings the "Leather A" or "Leather B" Maintenance Kit is included with the product.
