

Boa Pouf

Fact Sheet

Boa Pouf

Design by Sabine Marcelis

The donut-shaped Boa Pouf by Sabine Marcelis is perfectly sculptural; a bold graphic form that interrupts interior landscapes with its faultless chunky geometry. This piece of upholstered occasional furniture is rounded and soft, encased in a seamless outer layer that gives it an air-brushed finish: The smooth shape-knit textile that covers the Boa Pouf is a milestone in technologically innovative furniture making. Boa Pouf is as perfect for perching on, propping up feet, lounging against, as it is for making a sculptural statement and is the ideal expression of designer Sabine Marcelis, whose work is characterised by resonating clear, single, notes of absolute material, textile and colour.
