

TR BULB SUSPENSION FRAME
STEEL, POLISHED - EU / UK - MATT BULB
Designed by *Tim Rundle*

Providing clever solutions to modern needs, the TR series is based on the TR Bulb, a portable opal glass shade fitted with long-lasting LED technology and designed to be taken from space to space, installed simply by screwing it into a pendant socket. The sleek lines of the TR Bulb Suspension Frame are perfectly offset by the round TR bulbs to create a graphic look that is at once sophisticated and inviting. Available in powder-coated steel, brushed brass or mirror polished steel, and with bulbs that dim from bright to low, the design delivers harmonious, glare-free ambient and task lighting to counter tops, desks or dining tables.
