

MENHIR

design Piero Lissoni

Low table available in marble or wood.

The marble version is made by carving a single block of Bianco Carrara or Nero Marquina marble (hollowed inside), with natural glossy finish. The wooden version is made of MDF frame, veneered with charcoal-dyed oak with acrylic painting finish, or veneered with Stone Oak® with water painting finish. In both versions, feet in AISI 304 Stainless Steel, matt-satin finish with floor support provided by plastic tips.

Notes

Wood is a living material; therefore, it can have slight color and dimension changes. The presence of any non-homogeneous color shades is not to be considered a defect but a quality. Please note that the direct sunlight exposure may alter the wood color; therefore, we recommend the periodic position shift of the objects placed on the furniture for the first months to avoid differences in shades between exposed and covered portions.

STONE OAK®: this wood owes its particular coloring to an entirely natural process. Because of this, some slabs may look more brown than others. Our commitment is to provide you a high-quality product; any differences in color should not be considered as defects.

On request, an additional protective (acrylic solvent) painting is available for the Stone Oak® finishing only. It should be noted that this additional coating slightly changes the natural color and texture of the surface. Although this supplementary painting increases the surface resistance, it is still a natural material; therefore, small superficial stains, due to oil or other substances, must be promptly removed, before being absorbed in depth by the wood. Thus, we recommend regular care and maintenance.

For marble finishing with opaque matt polyester finish, the "Marble" Maintenance Kit is included with the product.
