The Zodiac mirror by Jean-Baptiste Fastrez plays with its mirror
surface to complete the « sausage » it is made of.

Seemingly inflated and made of ultra glossy ceramic to remind the
inflatable boat it bears the name, the Zodiac mirror frame looks full
thanks to a symmetrical mirror image of half a ring into the mirror.

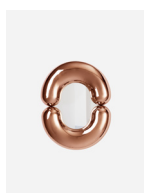

Caution

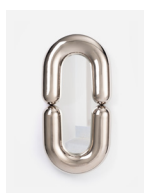

Place the right angle screw hooks
(not provided) in front the holes
at each extremity, behind the
mirror.
Do not use the central keyhole.

The mirror is designed to have its
larger part on top.
