

Florius

2024

Antonio Citterio

Description

Conceived to revive the tradition of the great upholsterers, the Florius sofa system is characterized, even at first glance, by a minimalist frame and a large number of cushions. The selection of modules available allows to create many different configurations: linear, corner, with one or two armrests, with ottoman or chaise lounge. Florius comes in two versions: one with the frame and the cushions entirely upholstered in fabric or leather; the other with the wooden frame in shellac finish, to be combined with fabric or leather upholstery for the cushions.

Technical information

Internal frame

tubular steel and steel profiles with elastic webbing, shaped polyurethane, polyester fibre cover

Shell

wood particles panels, shaped polyurethane, polyester fibre cover

Shell (shellac version)

wood particles panels, MDF wood fibre with solid wood section
