## Florence Dining Table Ø120

*Knut Bendik Humlevik & Josefine Hedemann*

The Florence Table series expands, quite literally. Now available in a Ø120/Ø145 cm version, it has even more room to focus on the contents of living. With the addition of wood veneer and marble table top options - as well as glass, Florence's sleek frame still provides that same visual lightness and beautiful simplicity of the original.

### About the designers

**Knut Bendik Humlevik & Josefine Hedemann**

After years of experience as a product designer, Knut Bendik Humlevik became New Works creative director in 2014. Leading the story of New Works in collaboration with a number of internationally renowned designers, Knut also contributes his own pieces to the collection. His Scandinavian heritage is combined with an internationally inspired passion for honest materials, in a quest to create artistic and highly functional objects.

Inspired by interesting silhouettes and shapes, Josefine Hedemann experiments with unpolished, beautiful materials and colours to create products. Working alongside styling and installation projects, Josefine uses these same principles to create works with strong narratives, poetic and elegant stories that invite the user into her universe.

## Cleaning & Care Guide

The table tops in our collection are treated with a sealer which makes the table top more stain resistant than untreated marble. Because marble is a natural material, marble is sensitive to liquids - in particular acidic substances like lemon juice, wine or coffee. If the liquid is not removed immediately, spilled liquids will leave a permanent stain on the table top. However, it is strongly recommended always to use a trivet and not to place glasses or cups with liquids directly onto the marble table top.

For daily care and cleaning it is recommended to use a cleaning agent specifically developed for stone or marble. It is also highly recommended to do a re-sealing of the table top approximately every second month using an appropriate sealer developed specifically for stone or marble. Please contact your local hardware store to find the right cleaning agent or/and sealer.

Wipe the Table Frame with a soft dry or moist cloth. Do not use any abrasive cleaning tools, and never use strong cleaning agents such as household glass cleaner, white spirit or turpentine.

## Safety Precautions

A damaged edge or scratched surface can in exceptional cases cause the glass to crack suddenly. However rarely into sharp fragments and only into small pieces. Avoid collisions from the side - this is where the glass is most vulnerable.
