FRIENDSFOUNDERS

THE FF SERIES HAS A DISTINCTIVE CHARACTER THAT  
DRAWS FROM THE SIMPLICITY OF ICONIC MINIMALISM

# FF CHAIR

DESIGNER IDA LINEA HILDEBRAND CONTINUES HER RELIABLE TRADITION TO USE GEOMETRIC ABSTRACTIONS AS THE FOUNDATION OF HER WORK. THE MINIMALIST DESIGN OF THE FF COLLECTION PARALLELS THE BAUHAUS MOVEMENT'S FUNCTIONALIST IDEOLOGIES. THE FF SERIES HAS A DISTINCTIVE CHARACTER DRAWING ALSO FROM THE SIMPLICITY OF MINIMALISM. ANY SIGHTLINE WILL SHOW OFF THE CHAIRS EXTRAVAGANT DETAILING AND THE DESIGNER'S AESTHETIC VISION.

The FF COLLECTION was developed with a focus on sustainability. At first glance the FF chairs might resemble the common steel-tube chairs that have adorned private and public spaces for generations. But the intention is far more thoughtful and rooted in a consideration of sustainable production in furniture. The FF CHAIR possesses a number of sustainability merits.

In considering durability and the life-cycle of the FF CHAIR the frame was built to last a decade at the very least. As upholstery components become worn or outdated the FF CHAIR was crafted with upholstered parts that can easily be removed and recycled. Without reproducing its structural elements a re-upholstered chair gets a new look and new life.

The chair is manufactured in Northern Europe by skilled craftsmen with a passion for furniture. The FF COLLECTION is a perfect choice for modern settings. It mixes well with mid-century, iconic architecture but can also be suitable in other historical contexts.

The FF collection comes in a variety of upholstery options. Friends & Founders' UPHOLSTERY collection offers a wide range of sustainable fabrics and leathers for contract and residential use. The SELECTED collection features exclusive offerings for higher-end interior designs.

THE COLLECTION FEATURES A DINING CHAIR AND CANTILEVER CHAIR.
