

Lucellino Wall
INGO MAURER 1992/2017/2022

Lucellino Wall – An Ingo Maurer Classic. Lucellino Wall is a classic wall lamp by Ingo Maurer. The iconic bulb with wings embodies the defining elements of the brand's design philosophy: poetry, humor, and technology. A new feature is the Ambient LED bulb, specially developed for Lucellino. It is the modern successor to the halogen lamp, combining contemporary LED technology with the advantages of incandescent light. It offers the efficiency of an LED with the light quality and dimming behavior of a halogen bulb. Lucellino Wall is now available with the beautiful dim-to-warm ambient light and brings charm to any room.

Light source

With LED Ambient bulb E27 A60 matt. 12 V AC, 5 W, 380 lm, 2000–2700 K, dim-to-warm, 20,000 h, CRI >90, EEC G (A–G). Can be replaced by the user. The Ambient bulb is manufactured exclusively for Ingo Maurer.
