

## SEGNO | INDOOR - OUTDOOR

design Leonardo Talarico

Umbrella rack in 304 AISI stainless steel, with a structure consisting of two ring elements and a central support stainless steel rod of  $\varnothing 12$  mm welded together, and a  $\varnothing 25$  cm tray-base with a counterweight, made of 2,5 mm thick deep-drawn and laser-cut 304 AISI stainless steel sheet, featuring technical details that allow insertion into the lower ring.

Finish with polyester epoxy powder coating in Gunmetal grey or burnished colour. A slip proof transparent matt varnish is applied to the lower part of the tray-base.  
Floor support provided by plastic feet, also suitable for outdoor use.

### Notes

For the OUTDOOR version, we recommend placing the product on terraces or verandas to guarantee its durability over the years. It is recommended to use a "Protective Cover" to improve the longevity of the product. For further information about the dedicated maintenance, please refer to the technical sheet available in the "Materials" section on our website.
