

Podium series

Designed by Sanna Völker, Sweden

Podium is designed by Sanna Völker and is a fusion of form and traditions. The fibre concrete gives Podium its weight, making these statement pots a simple and grandiose home for your green plants. A drainage hole at the base ensures that your plants thrive, but also makes the pot optimal for outdoor use.

Meet the designer

I usually store ideas and cherish inspirations for some time until they mature and eventually emerge in a suitable product. These influences can include a touch on a surface, a beautiful curve, a funny anecdote, social change, user need, a meaningful word or a graceful movement. I also find the human mind and behaviour fascinating, and this is often a starting point for my designs. I believe that my products combine Scandinavian values and aesthetics with urban attitudes and contemporary lifestyles.
