

Touchwood

Fact Sheet

Touchwood Armchair

Design by Lars Beller Fjetland

Subtle, strong, and elemental, the Touchwood Chair reflects designer Lars Beller Fjetland's belief that interacting with natural materials is of huge importance. Neither unnecessary decorations nor extraneous components should interrupt the simple relationship between material and user. The beechwood is molded into a continuous shape, making it contract grade durable, while preserving its flexibility. All variants of the Touchwood family stack, making them an ideal choice for public spaces or busy homes. If you perceive more than a little influence from classic minimalistic Scandinavian design at play in this hardworking, functional chair, you'd be right! An armchair, counter stool, bar stool and bar chair in a variety of wooden and metal bases, heights and finishes complete the Touchwood Family.

Product name	Finish	SKU	Base wt	Net wt (kg/ lbs)	Weighting dimensions	
Touchwood Chair	Black / Black PC	20131				
	Black Graphite / Black PC	20132				
	Black Cobalt / Black PC	20133

Stackability

Touchwood Armchair
1 – 15

197 cm / 77.7 in

The Touchwood chairs and armchairs are compatible with straight stacking chair trolleys that have a stacking plate/arm no wider than 40cm / 15 3/4". The stacking plate/arm should provide support under the chair's stacking bars, plus vertical support for the chairs to rest on when the stack is tilted back onto the trolley wheels during transport.
