Ontwerpduo

SERAX

Time and time again, Ontwerpduo surprises with designs that convey indisputable functionality and beauty. This is no different for the glass jars with matching lids made of warm acacia wood. The lids can also be used as plates or bowls. Both the transparent and the pink jars and their lids are available in medium and large versions.

Ontwerpduo's designers Tineke Beunders and Nathan Wierink complement each other perfectly. Tineke is the creative half of the duo. Her ideas are executed flawlessly by Nathan. This also applies to this outstanding one-litre borosilicate glass carafe which they designed for Serax. The cap is itself a small carafe that you can fill with syrup, for example. Ideal for a refreshing and original aperitif.

ONTWERPDOUO

Ontwerpduo, an established name in the world of design, has roots that go further back than their registration with the Chamber of Commerce in 2008. Tineke Beunders and Nathan Wierink had already formed a team back when they were still studying at the Design Academy. Quite a special duo, the very definition of the concept 'complementary'. New functions for existing objects always sprout from Tineke Beunders' imagination, often completely ignoring any practical and technical aspects. These fantasy objects often take on seemingly impossible shapes, but then Nathan Wierink steps in. In his workshop, which is starting to look more like a laboratory, he gets to work on Tineke's designs, and when he comes back out, it always appears that his partner's ideas were feasible after all.

MATERIALS

Normal glass + acacia wood
Finishing version 1: Clear glass
Finishing version 2: Clear pink glass
Finishing wood: Sanding without surface treatment
Production : Mouth-blown glass

OPERATIONAL USAGE

Tableware
Food safe
Microwave proof : No
Dishwasher proof : No
Oven Proof : No
Salamander Proof : No

SPECIAL CARE INSTRUCTIONS

We advise to wash by hand using soft sponge + soft detergents.

PACKAGING

Gift box
Volume & dimensions of the complete range available upon request.
