

## GIOTTO

Design: Natalino Malasorti

The taps collection, made of AISI 316L stainless steel, is available with progressive, dual handle and thermostatic mixers.

Inspired by the pure and archetypal forms of the circle. Designed to ensure maximum compositional freedom thanks to the ductility of the collection, GIOTTO is an expression of aesthetic and functional consistency.

A wide choice of remote controls and shower sets allows endless combinations with FREE IDEAS outlets: spouts, shower heads and hand showers allow you to configure and customize the product.

All the products of the GIOTTO collection are available in the standard satin and polished finish and in all CEA's special finishes (Black Diamond, Bronze, Copper and Light Gold), guaranteeing an ecological and biocompatible solution. GIOTTO can also be personalized with handles in 4 different wood essences: Canaletto Walnut, Burma Teak, Oak and Wenge. Independently of the choice of wood, the spout and the cover plate always remain in stainless steel satin, polished and Black Diamond finish. These taps are completed with the GIOTTO accessories collection, in which the shape of the circle is repeated several times, emphasizing the concept of perfection.
