MAINTENANCE AND CARE

SYNTHETIC WEAVE

For our all-weather outdoor collection, we use multiple synthetic materials, including polyethylene, polypropylene, HDPE wicker and HPL.

All our synthetic materials are specifically designed to withstand any weather conditions, are UV-resistant, and can be left outside all year long.

We recommend giving them a quick wash when dirty or every three months with a non-foaming mild detergent.

HPL

You can use your HPL side tables inside as well as outside.

Dirt does not easily stick to the material, which makes your side tables easy to maintain.

Use a damp cloth and water to clean spilled solutions. The quicker you remove them, the easier.

Use a solution of water and mild soap to clean more stubborn stains.
