

Plinto represents form, versatility, and nature. This collection of pedestals balances the stoicism of brushed brass with the functionality of the cylinder, elevating nature's simple flora into unique and compelling micro landscapes.

Each pedestal has a slender opening to hold a dried flower, grass, leaf, or other natural element. Whether you have the set of eight or the one of 25, the pedestals enable you to capture an outdoor experience in a composition that reflects your interpretation of one of Mother Earth's many stories.

Plinto is our tribute to nature's little details. At ACdO, we use design to encourage appreciation of the delicate lines and unembellished beauty found in the world around us.

Technical specifications

The cylinders range in size from a height of 20mm and a diameter of 8mm, to a height of 150mm with a diameter of 30mm, and can be bought as a selection of 8, or a larger set of 25. Each set comes in a specially crafted boxes that serve as a beautiful storage cases when Plinto needs to be packed away.

Materials

Brushed brass.

Packaging: 100% cardboard + paper

Maintenance

Brass is not protected so it will naturally develop some patina according to the use and location. To clean the brass vase gently wipe it with a damp soapy towel. You can also use specific brass cleaner product to give it back its original look.
