

All Wood Stool

Fact Sheet

All Wood Stool Rocket & Bobbin

Design by Karoline Fesser

Like a good friend, the All Wood Stool is easy to be around. This functional piece of occasional furniture can be a side table, a seat, or a platform on which to display your favorite things. Adjust its height whenever you like with a simple turn of its screw mechanism. Designer Karoline Fesser nods to midcentury icons such as the Eames Time Life stool as well as functional workshop furniture like sculptors' tables. As its name implies, this piece is made from solid ash or walnut wood, CNC cut, and lacquered. Choose from two shapes, Rocket or Bobbin.
